

Developing Leadership And A Culture Of Leadership

Leadership Culture

1. Leadership Culture is not achieved by programs but rather by environments.
2. Leadership Culture environments are not developed by spontaneity but rather by intentionality.
3. Intentional Leadership Cultural transformation is only as effective as the plan to do so.

Leadership Development

1. The most critical building block for spiritual leadership development is spiritual maturity.
2. There is a proven process for developing spiritually mature leaders.

Truth → Equipping → Accountability → Mission
(all in an environment of prayer)
3. Environments of only truth and mission produce disillusioned, ineffective leaders.
4. The biblical process of leadership development is best accomplished in a life-on-life environment.

•one person laboring in the life of another
